

## Cloud Computing Exercise 2 – Understand application usage

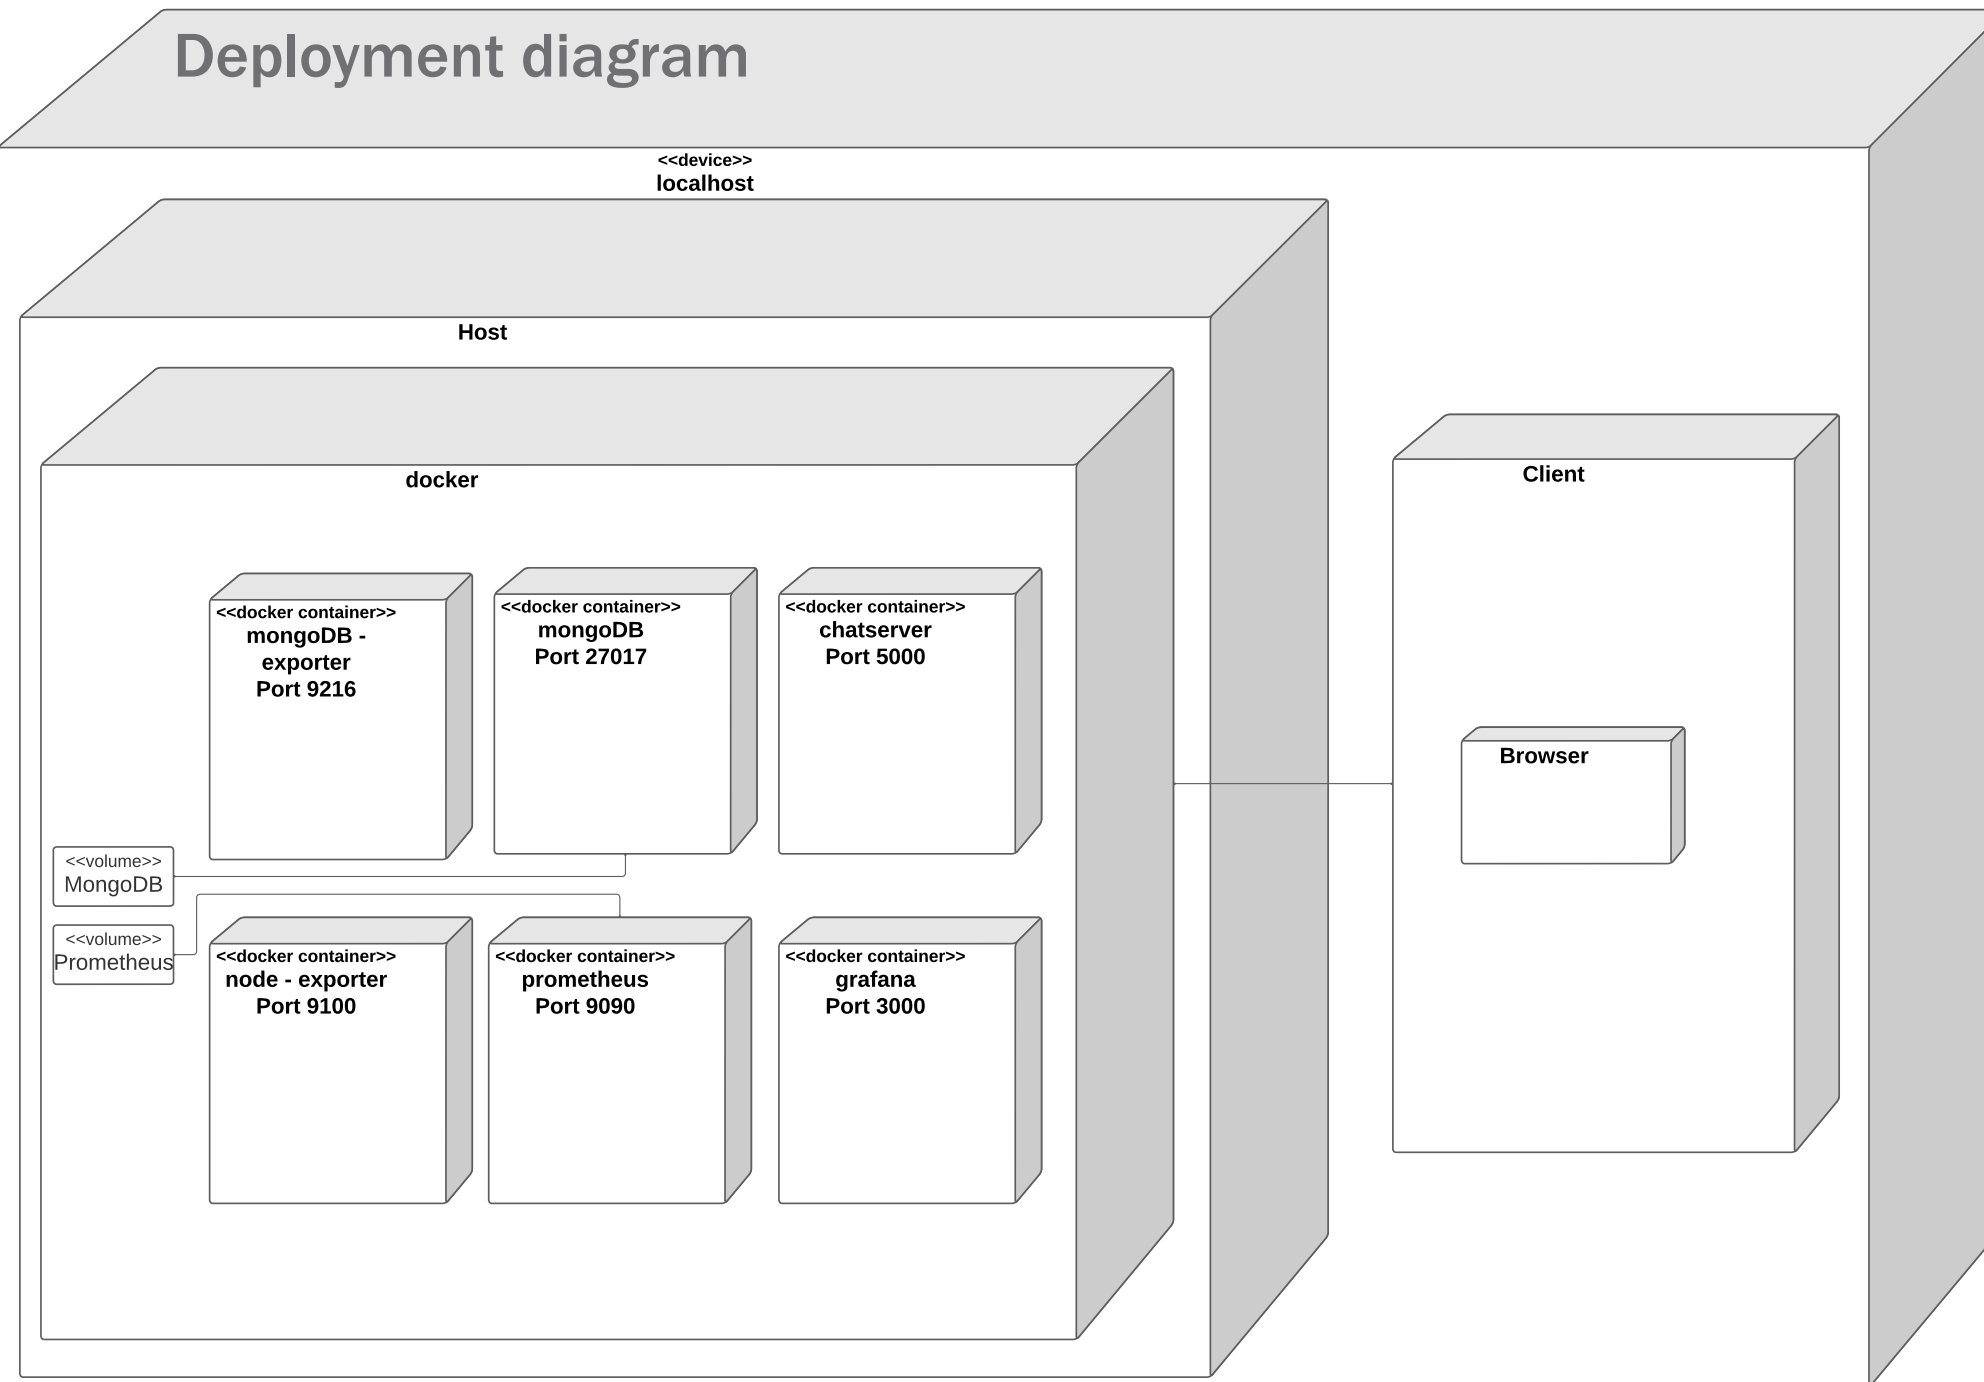

Markus Klose, 801236  
Alexander Hobelsberger, 766455

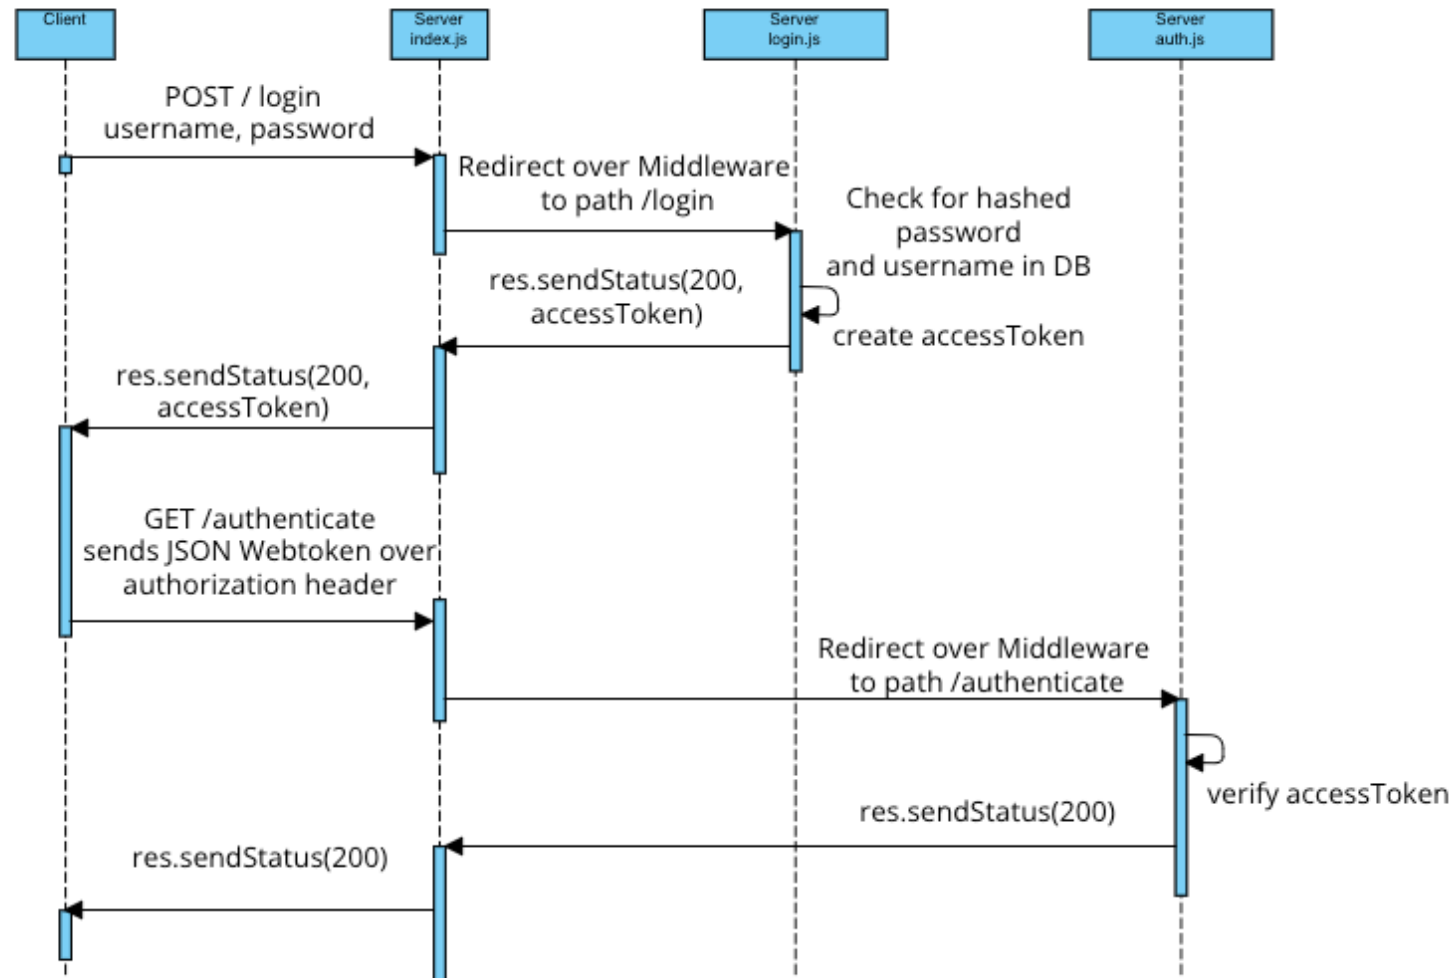

# Component diagram

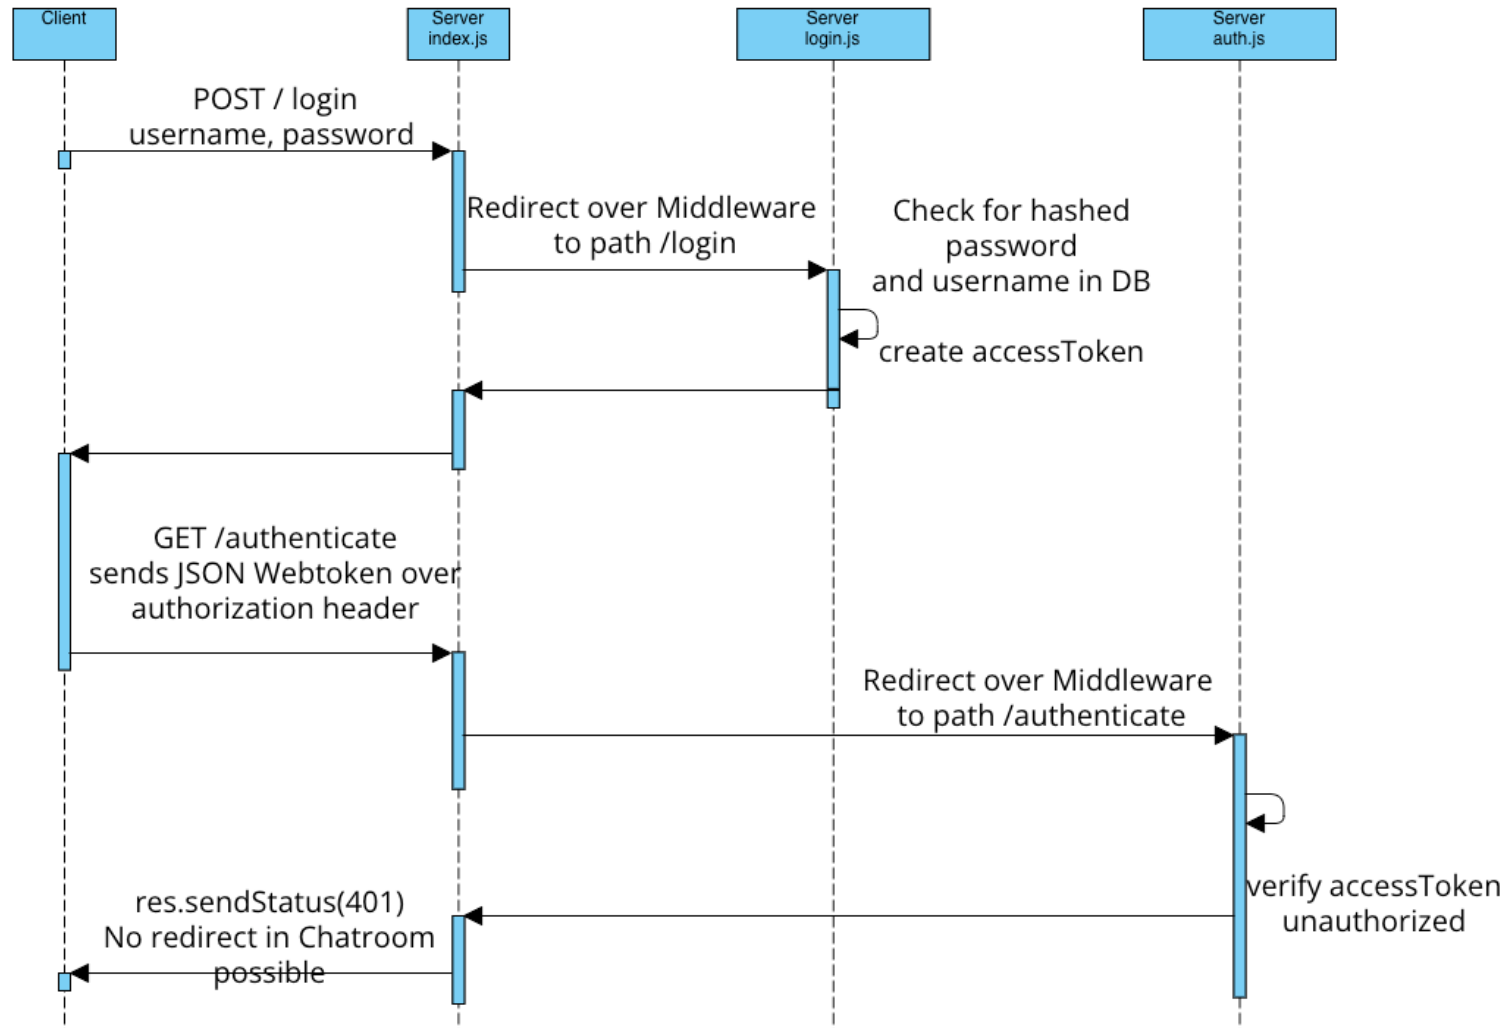

# Deployment diagram

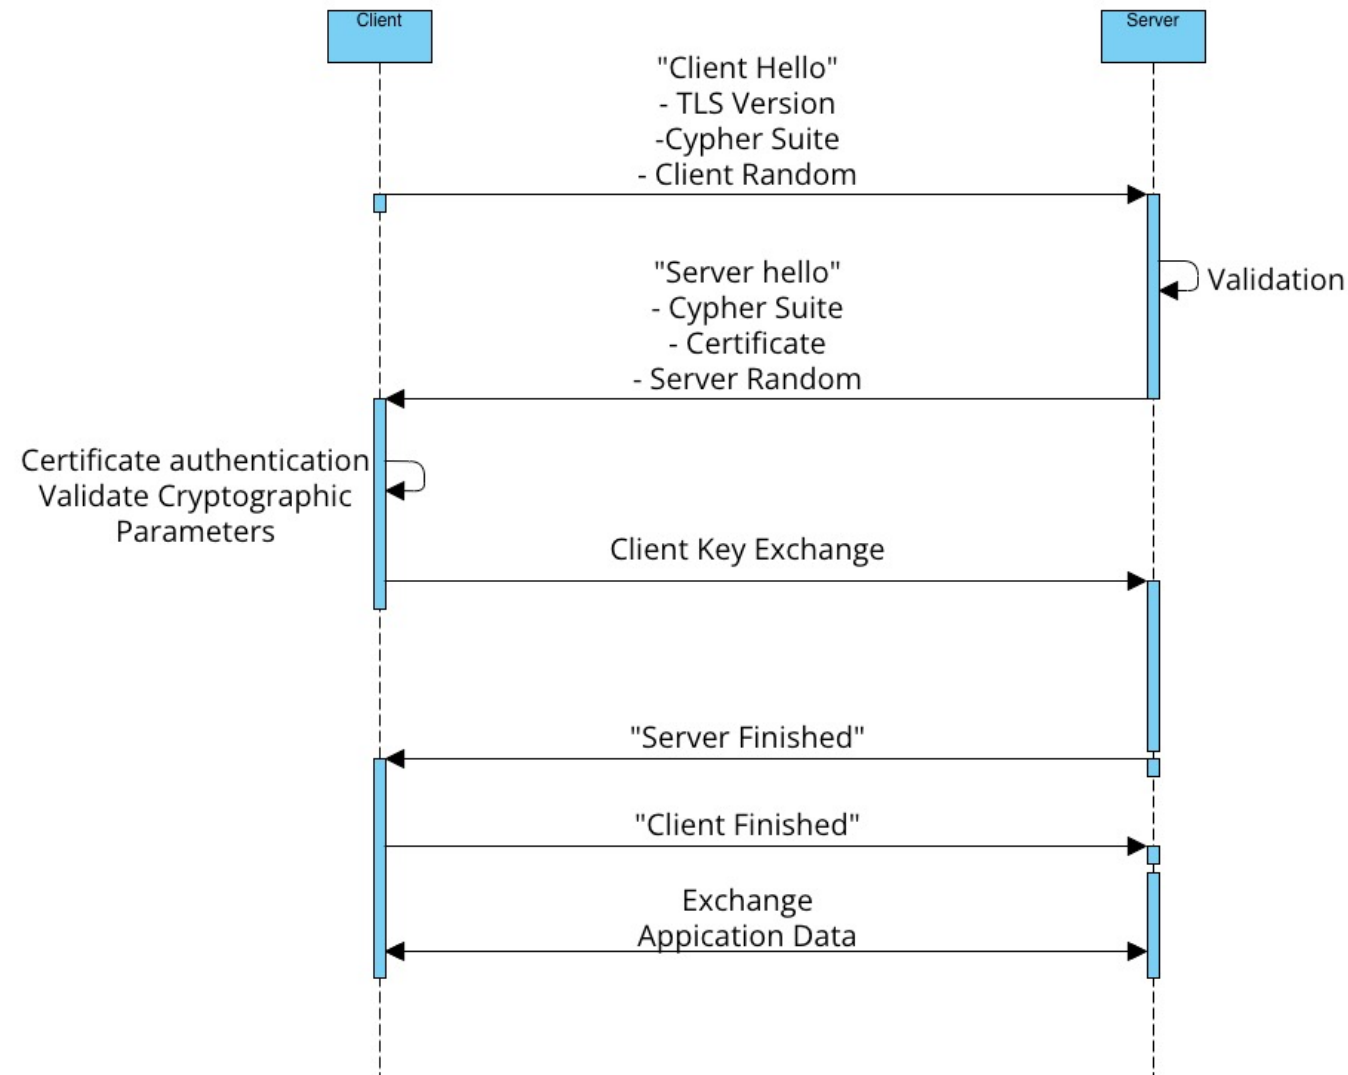

# Sequence diagram – successful authentication

# Sequence diagram – not successful authentication

# Sequence diagram – TLS

- Better timemanagement
- Deploy Software in Docker containers
- More in depth features of docker-compose.yml
- Monitoring with Prometheus and Grafana
- Configuring communication between Docker containers
- Learning about metrics on the server side
- Refreshing knowledge of UML diagrams
